Charges for this Fund

These charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3%
Exit charge	3%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	1.51%
Charges taken from the Fund under certain specific conditions	
Performance fee	10% of the net out-performance of the MSCI Asia Pacific ex-Japan Gross Return USD Index (in Sterling terms) with a high-water mark, payable quarterly. The performance fee charged in the last financial year was 0.00% of the share class as at 31 December 2017.

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find out the actual entry and exit charges of the Fund from your financial advisor.

The **ongoing charges** figure shown is an estimate of the charges as the actual ongoing charges figure is not expected to be representative of the Fund's future ongoing charges due to recent regulatory changes which indicate that this figure must now include investment research costs. The Fund's annual report for each financial year will include detail on the exact charges made. The ongoing charges figure excludes:

- Performance fees; and
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment scheme.

More information about charges may be obtained from the 'Fees and Expenses' section of the Prospectus which is available at www.prusikim.co.uk.
